

Cavenham Parish Report for 20th May 2026

Manor Ward Councillor Dave Taylor

Please find my May report

Better Recycling

New food bins plus additional recycling bin should have now been delivered. We go live 1st June.

Funded by government. People talking about all same colour bins – Just too expensive to do it that way. We ave 40% recycling Europe north of 65% Cheaper to recycle than burn – Burn it once – once only.

Locality budget

I have allocated between £300 and £400 from this years locality budget and would ask that the PC consider what they require and notify me using the application form (that I will forward) by Nov 2026.

Barley Homes

Barley Homes are an arms length house builder owned by WSC & SCC. They have been looking at any local land with a view to build. To the best of my knowledge Worlington is not subject to this.

Three Unitary Councils

At present our new council is being referred to as Western Suffolk. District and County Councillor will be in post until May 2028. They will continue to run the business. In May 2027 the new shadow unitary council will be elected. They will start to set the political structure for the new council whilst the existing council continues.

Offices, vehicles, staff, depots, swimming pools, leisure centres etc etc etc. West Suffolk will add some area to it so we are not losing anything or anyone.

Mildenhall Hub

Work has started on the canopies to cover the car park with solar panels to be put on them. West Suffolk will then sell the power to the Hub.

Mildenhall Bus Station

The bus station building is progressing to schedule and will be the new banking hub for the town. This will not mean there will be a postal service. Yes it takes ages, but the land around it is owned by highways. Planning needs to be sought, etc etc We are progressing it as quickly as possible.

Sunnica

Who knows where this will end up? I believe the site is up for sale and Reform have already if in government things might change.
